The diagram illustrates the wiring for a car stereo system. Key components and their connections are as follows:

- Power Supply:** A battery (E000) is connected to a fuse (F00) and a power switch (SW00). The power is distributed to various components.
- Central Unit (CCN):** The main control unit, featuring a volume knob, a power button, and a display. It is connected to the power supply and the speakers.
- Speakers:** Four speakers (8420, 8430, 8435, 8445) and two tweeters (8425, 8440) are connected to the CCN. The speakers are labeled with their power ratings (e.g., 2W BK, 2W YL) and part numbers.
- Other Components:** The diagram includes various electronic components such as resistors (F02, F19), capacitors (F14, F2), and integrated circuits (IC23A, IC22A/IC20A, IC20A/IC24A, IC24A/IC20A).
